

# Case Study

## Heathland Beach Holiday Park, Kessingland, Suffolk

This popular family run holiday park on the far East coast of England had worked with HAGS on various projects for 20 years prior to this. With a fantastic sandpit already in place, the location was looking to replace their existing playground train and jeep.

A bespoke version of our Gare de Nord play train was created to replace the well-loved existing train like for like and it was decided that the Jeep would be replaced by the extra large Mayflower boat springer, which now faces the sea directly (which is only 300 yards from the boat springer!)

**Project value: £20,000**

Site Address:  
Heathland Beach Holiday Park,  
London Road, Kessingland,  
Nr.Lowestoft, Suffolk, NR33 7PJ
