

Case Study

Roseacres Primary School, Bishop's Stortford

Natural Robinia Trim Trail Play for Early Years!

Roseacres Primary School were looking specifically to create a natural physical environment for children to be able to roll and balance, climb, traverse, and crawl in all weathers. Most traditional trail is much taller, but the school were ideally looking for equipment that would work well for their Early Years. HAGS Basic Natural Robinia Trail is tailored to support children from age 3 upwards and was perfect for this lovely PTA-funded project at Roseacres.

"HAGS was professional throughout with very good communication. The equipment looks great - perfect for the age group!" Isobel Baron Headteacher

Project value: £20,000
